

KRONENBOURG LAGER

Founded over 350 years ago by French master brewers, Kronenbourg 1664 is a pale lager characterized by its fine taste and noble history. Its golden hues and delicate bitterness come from selecting the best hops, the 'strisselspalt', giving the pale lager its unique taste.

Strisselspalt is known as the 'caviar of hops' by master brewers around the world. Its uniqueness comes from its ability to deliver full taste with low bitterness - perfect for a French lager.
